

Doctor Of Business Administration

CRICOS Course Code: 120199D | Course ID : CRS1401848

Introduction

This course is designed for students with substantial professional experience who seek to further enhance their skills in contemporary business settings. Students will be equipped with systematic and advanced knowledge and skills in research methods, critical thinking, communication, and creative problem solving in complex business settings. Through independent research, students will identify, investigate, and address a complex challenge in their area of business management, organisation management, or farm management and agribusiness. Students will present their findings, demonstrating how the research that makes a significant, original contribution to business administration.

Graduates will be able to demonstrate the autonomy, expert judgement, adaptability, and responsibility required to pursue research projects at doctoral level or apply research and critical thinking in professional practice. Employment opportunities for Doctor of Business Administration graduates include, but are not limited to, management or research roles in private or public sector organisations both agribusiness and non-agribusiness, community or public services leadership, or academic and executive roles in the higher education sector.
